100% Polyester

Simple, functional and totally reliable. The waterproof jacket is one of the lightest shell jackets in our collection. And although the fabric has a pleasantly soft feel, it's also super robust - a great combination if you like to spend a lot of time outdoors. Add in the waterproof, windproof and breathable performance of our TEXAPORE fabric technology, and you have a jacket you can rely on to protect you from the weather. We've used an extra robust version of TEXAPORE, so when you're out there in the wild country, you won't have to worry about your jacket. The fabric is also relatively light, which improves the wear comfort significantly when you're on the move all day. And when the rain stops but the wind is still blowing, you can stow the hood in the jacket collar, so it doesn't flap around.
