STORMLOCK SOFTSHELL JERSEY 3L
100% Polyester

Additional Fabric:
FLEX SHIELD
9% Elastane, 91% Polyester

With a windproof front and a stretch fabric all over, the softshell vest provides the perfect protection for windy days. This breathable softshell gilet also looks great. The back is cut from our FLEX SHIELD fabric which is particularly stretchy, abrasion resistant, and allows your skin to breathe. For the front we have used our proven STORMLOCK. The fabric protects you from the wind, while light rain simply beads up and rolls off the surface. The high collar provides additional wind protection. The chest pocket and two hip pockets provide a practical place for any small items that you need to keep handy when you're on the move.
